## SPLATTER SCREEN

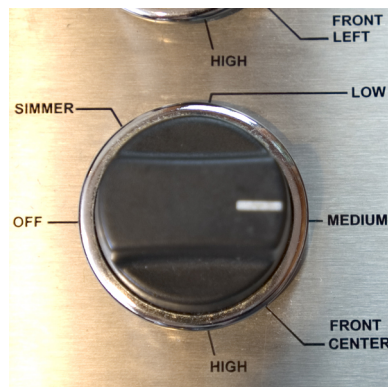

*Here's how to use a splatter screen.*

- \_\_\_\_\_ 1. Get splatter screen. Get pan with food.  
Get a clean, correctly sized splatter screen and a clean pan with the food to be cooked in it.
- \_\_\_\_\_ 2. Put splatter screen on to pan.  
Once the food to be cooked is in the pan, use the handle to carefully fit the splatter screen over the pan.
- \_\_\_\_\_ 3. Turn on stove.  
Turn on the stove burner according to the recipe.
- \_\_\_\_\_ 4. Take off splatter screen, *if food needs turning or stirring*.  
If the food needs to be turned or stirred, use the handle to carefully take off the splatter screen from the pan and put it on to a kitchen counter.
- \_\_\_\_\_ 5. Put splatter screen on to pan, *if food has been turned or stirred and needs more cooking*.  
After the food has been turned or stirred, and needs more cooking, use the handle to carefully fit the splatter screen over the pan again.
- \_\_\_\_\_ 6. Turn off stove.  
Turn off the stove burner once the food is done cooking.
- \_\_\_\_\_ 7. Take off splatter screen and wash.  
Once the food is done cooking and the stove burner has been turned off, take off the splatter screen from the pan and put it in the sink or dishwasher for washing.
